## Assembly Instructions for the Pub Table

### Step 1

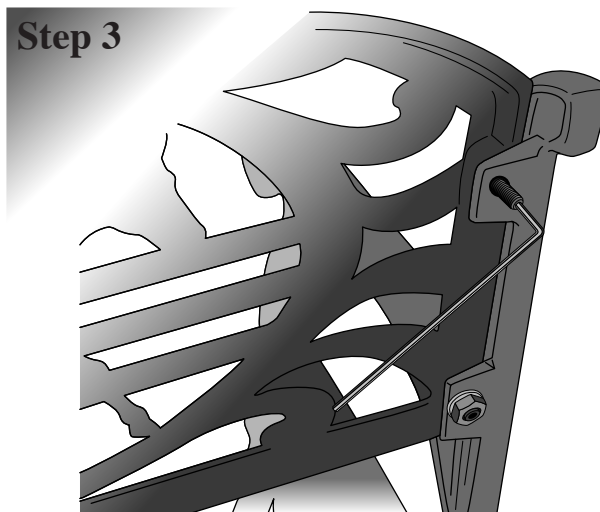

Place the seat into position against the leg frame making sure that the lip on the edge of the seat fits into the groove in the frame. Insert the threaded metal posts (4) into the threaded holes with the hex hole facing out. **Do not tighten, as this could force the post through the other side.**

### Step 2

When all 4 metal posts have been threaded through the seat frame into the seat, attach a washer and nut to each. Finger tighten for now.

### Step 3

Repeat process of steps 1 and 2 with the chair back, attaching the posts through the leg frame holes and hand threading into the back. Secure finger tight with washer/nut combination.

### Step 4

Attach the bottom support braces, one each in front and back. Secure with the phillips head bolt and the washer/nut combo. Visually inspect the chair and then **tighten all nuts** with a 9/16" wrench.
